The Range of a Set of Data

The range of a set of data is presented in our interactive lesson. Learn range at your own pace at Math Goodies.

Finding averages and range lesson by mistrym03 | Teaching ...

Three part lesson on finding the mean, median, mode and range from a list of numbers at level 5. Starter revisits previous learning. Several tasks and extension activities provided with answers where appropriate.

Finding the Mean, Median, and Mode

Find the mean by adding all the numbers and dividing by 20. Adding all the numbers results in 99. Divide 99 by 20 and you get a mean of 4.95. Before finding the median, the numbers have to be put in order from smallest to largest.

Range Statistics and d2 Constant – How to Calculate ...

Range statistics and the d2 constant are used to estimate the standard deviation. The d2 constant is found in a statistical table, but how is d2 derived?

Statistics Videos

Nature of Statistics and Probability. Data Distributions -- types of data; Inference -- What is it? Random Variables -- definitions; Sampling -- How to select valid samples

Range, Variance, and Standard Deviation Calculator ...

This range, variance, and standard deviation calculator finds the measures of variability. The calculator will guide you through a step-by-step solution.

Statistics | australia.gov.au

Australia's national agency for health and welfare statistics and information.
